

## **GOVERNANCE v MANAGEMENT**

The inspection process under the LSC lays emphasis on the separate roles of 'governance', the responsibility of the Corporation, and 'management' the responsibility of the Principal and the Senior Post Holders.

It is the Corporation's function to set the strategy and overall direction of the College and to monitor the performance of the Principal and the Senior Managers. It is the Principal's role to implement the Corporation's decisions and to manage the College's affairs within the framework set by the Corporation.
