## BHASVIC

**Arabic • Chinese • French • German  
Italian • Japanese • Polish  
Portuguese • Russian • Spanish**

Our courses are classroom based, also tutors bring students into our digital language lab to do listening exercises and speaking.

## Principal's Introduction

At BHASVIC our purpose is to change people's lives through learning. We aim to provide you with the opportunities you need to achieve your learning goals and ambitions.

This guide will show you the kinds of language opportunities we offer through a range of courses from beginners' courses to advanced level. BHASVIC values diversity and is committed to fair treatment for all students and staff regardless of race, disability, sexuality or belief.

Our learners come from all backgrounds and have joined for many reasons: to learn new skills, to meet people, to gain confidence; to help their children at school or simply for the enjoyment of learning. Our Adult Education provision is an important part of BHASVIC's role in the local community and we hope you make the most of the opportunities it provides. I very much hope this guide makes you want to come and see the College for yourself. Everyone is welcome!

**William Baldwin** – Principal

## General Course Information

In line with our commitment to running language courses for the local community, we are pleased to offer a **range of 30 week adult education courses in Arabic, Chinese, French, German, Italian, Japanese, Polish, Portuguese, Russian and Spanish starting in September 2017**. For Spanish we will also run a 10 week intensive beginner course commencing at that time. **All class times are 18.30-20.00.**

Our courses are taught in a friendly and relaxed learning environment by highly qualified teachers, most of whom are native speakers and will help you learn the language you need to cope with practical situations for travel, professional, cultural, social and leisure purposes.

Our courses do not lead to any formal qualifications, so there is no pressure on you to complete assessments or take exams. Tutors will however assess you informally during class activities and through the marking of homework.

**Please note that our courses are classroom based and to ensure progression it is essential for you to attend on a regular basis. It is also recommended that you spend at least 1-2 hours each week doing private study.**

You will receive on-going support as **we have an online system set up which enables students who have missed a class to find out what was covered**. Included in the course fee you will have on-site access to the self-study resources in our language laboratory for the duration of your course. You will occasionally use the language laboratory as part of your lessons for listening and speaking exercises.

In addition to our main course programme starting in the autumn, we will be offering **20 week beginner courses commencing in January 2018 in French, German, Italian and Spanish**. Furthermore, **in April 2018** we will be opening **10 week Holiday Courses for holiday-makers** (beginner courses) in these languages as well. Full details will be announced on our website later on in the year.

## **Definition of Stages and Progression Opportunities**

### **Level 1 Beginner**

This course is ideal for those with no or very little understanding of the language. The main aim of this course is to give you Knowledge of some basic structures so that you are able to deal with simple everyday situations. You will learn how to give personal information, talk about family and social arrangements, directions, time and numbers, travel and transport, food and drink, shopping, plus holidays and leisure. The focus on practical communication skills will help you to 'get by' when abroad. You will be given an insight into the countries' culture relating to the language you are learning.

This course leads to Level 2.

### **Level 2 Elementary**

This course is for those who have successfully completed our Level 1 (or equivalent with other providers), or who have studied the language a long time ago and may be a bit rusty now. At this stage you should have an understanding of basic grammar including the present tense. You will develop your confidence by expanding on Level 1 topics and then go on to be introduced to more complex structures, like the past or the future tenses. The aim of the course is to develop understanding and communication to meet your needs in simple situations requiring a direct exchange of information on familiar and routine matters. You will develop your understanding of the countries' culture relating to the language you are learning.

This course leads to Level 3.

### **Level 3 Pre-intermediate**

This course is for those who have successfully completed our Level 2 (or equivalent with other providers). The Pre-Intermediate class aims to build on and consolidate the knowledge of basic language structures and functions allowing you to express yourself more freely in everyday situations. You should be already familiar with the present, past and future tenses, though all language structures will be consolidated. The syllabus of the course may cover the following topics: giving and understanding information about holidays, travelling, talking about situations in the past, understanding descriptions of people and places, making and understanding arrangements. The course will enable you to recount past events, interact in a social context both formally and informally, express opinions and plans and give suggestions. You will also further develop your understanding of the countries' culture relating to the language you are learning.

This course leads to Level 4.

### **Level 4 Intermediate**

This course is for those who have successfully completed Level 3 (or equivalent with other providers). You should be confident using the present, future and past tenses as well as some more complex structures. The intermediate class aims to revise and consolidate structures learned at pre-intermediate level, to broaden vocabulary and give you extra confidence. It will enable you to communicate freely on familiar matters regularly encountered in work, family, and leisure, describe experiences, events, dreams, hopes and ambitions, and give reasons and explanations for opinions and plans. You will also learn about the countries' culture relating to the language you are learning.

This course leads to Level 5.

### **Level 5 Upper-intermediate**

This course is designed for confident and experienced learners who have completed our Level 4 or at least four years of part-time study before joining the class. You would have already learnt all the main tenses and should be comfortable conversing in the target language but you would like to build up fluency and consolidate more advanced grammar items. The main aim of the course is to increase your confidence in expressing your opinions on a wide range of topical issues. This course will enable

you to further develop your speaking, listening and written skills in order to express yourself fluently and almost effortlessly by selecting adequate complex sentence forms to do so. The course syllabus may be constructed around the following areas: films, theatres and concerts, tourism, events and their consequences, ecology and the environment, plus health issues. You will be given an insight into the countries' culture relating to the language you are learning.

This course leads to Level 6.

### **Level 6 Advanced**

This course is for those who have successfully completed Level 5 (or equivalent with other providers) and is designed for advanced learners who have a very good command of the language and feel confident conversing in it. The course will cover a wide range of following cultural topics which will be adapted to students' interest: literature, current affairs, art, cinema, music, history, geography and country's institutions. Original materials from various quality newspapers and magazines, video documentaries and audio sources will be incorporated into syllabus. Students will have an opportunity to do their research on topics relating to current affairs and personal interests so they can discuss them during the lessons. The emphasis of this course is on speaking and in class you will get ample opportunity to practise your conversational skills through pair-work and group exercises. Practical advice on grammar will be integrated as appropriate.

### **Holiday (Short beginner course for holiday-makers)**

This highly communicative short course is ideal for those with no prior knowledge of the language. Emphasis will be on learning simple ways of expressing yourself to be able to 'get by' on holiday, for example booking a hotel room or ordering food in a restaurant. Grammar explanations will be kept to a minimum. This course is ideal for people who cannot commit themselves to more than one term or who just want to learn basic phrases to use on holiday.

**More detailed, language-specific course outlines will be available on our website so please refer to them if you are unsure which level to choose.**

## **Age Limit**

The courses in this leaflet are aimed at adult learners (aged 19+). We will accept enrolments from people who are at least 19 years of age at the

start of the course (with the exception of BHASVIC sixth formers who can also join our evening language courses). There is no upper age limit.

## **Frequently asked questions**

**Q: What do I do if I find myself on the wrong level?**

A: Providing there is availability, we will be more than happy to move you up or down a level. *(Not available to students on holiday courses).*

**Q: Can I join in with a class during the year?**

A: If places are available, then yes!

**Q: Can I pay in instalments?**

A: We are sorry but the full fee must be paid before the course starts.

**Q: I am really interested in one of your courses, but can't attend on the day you are advertising - should I look elsewhere?**

A: Yes and we will be happy to recommend other institutions. However, it is still worth registering your interest, as occasionally we create additional courses if there is a high demand, especially with Level 1 courses.

**Q: Do you have any courses starting later on in the year?**

A: Yes! We offer 20 week beginner courses that commence in January as well as 10 week holiday courses starting in April.

**Q: Will I need to put much work in outside of the lessons?**

A: Even though our courses do not lead to a qualification, it is impossible to retain what you have learnt in class without doing some homework and revision throughout the course. We recommend about 20 minutes per day of exposure to the language, i.e. doing homework, listening to the radio, songs, watching a video or reading an article in a newspaper or magazine.
