Principal's Introduction

At BHASVIC our vision is to be a contemporary, creative, learning community. This means extending our doors beyond our daytime provision to help provide those in our wider community with opportunities to learn.

This guide will show you the kinds of language courses we offer through a range of abilities from beginners' courses to advanced level. Learners on these courses come from all backgrounds and have joined for many reasons: to learn new skills, to meet people, to gain confidence, to help their children at school or simply for the enjoyment of learning.

Our Adult Education provision is an important part of our role in the local community and we hope this guide makes you want to come and see the College for yourself and sign up to one of our very successful courses.

Everyone is welcome!

William Baldwin – Principal

General Course Information

In line with our commitment to running language courses for the local community, we are pleased to offer **a range of 30-week adult education courses in Arabic, Chinese, French, German, Italian, Japanese, Polish, Portuguese, Russian, Spanish and Swedish starting in September 2018**. For Spanish we will also run a 10-week intensive beginners course commencing at that time. **All class times are 18.30-20.00.**

Our communicative language courses are taught in a friendly and relaxed learning environment by highly qualified teachers, most of whom are native speakers and will help you learn the language you need to cope with practical situations for travel, professional, cultural, social and leisure purposes.

These courses do not lead to any formal qualifications, so there is no pressure on you to complete assessments or take exams. Tutors will however assess you informally during class activities and through the marking of homework.

Please note that our courses are classroom based and to ensure progression it is essential for you to attend on a regular basis. It is also recommended that you spend at least 1-2 hours each week doing private study.

You will receive on-going support as we **have an online system set up which enables students who have missed a class to find out what was covered**. Included in the course fee you will have on-site access to the self-study resources in our language laboratory for the duration of your course. You will occasionally use the language laboratory as part of your lessons for listening and speaking exercises.

In addition to our main course programme starting in the autumn, we will be offering **20-week beginner courses commencing in January 2019 in French, German, Italian and Spanish**. Furthermore, **in April 2019** we will be opening **10-week Holiday Courses** (beginner courses for holidaymakers) in these languages as well. Full details will be announced on our website later on in the year.

Definition of Stages and Progression Opportunities

Holiday (short beginner course for holiday-makers)

This highly communicative short course is ideal for those with no prior knowledge of the language. Emphasis will be on learning simple ways of expressing yourself to be able to 'get by' on holiday, for example booking a hotel room or ordering food in a restaurant. Grammar explanations will be kept to a minimum. This course is ideal for people who cannot commit themselves to more than one term or who just want to learn basic phrases to use on holiday.

Level 1 Beginner

This course is ideal for those with no or very little understanding of the language. The main aim of this course is to give you knowledge of some basic structures so that you are able to deal with simple everyday situations. You will learn how to give personal information, talk about family and social arrangements, directions, time and numbers, travel and transport, food and drink, shopping, plus holidays and leisure. The focus on practical communication skills will help you to 'get by' when abroad. You will be given an insight into the countries' culture relating to the language you are learning.

This course leads to Level 2.

Level 2 Elementary

This course is for those who have successfully completed our Level 1 (or equivalent with other providers), or who have studied the language a long time ago and may be a bit rusty now. At this stage you should have an understanding of basic grammar including the present tense. You will develop your confidence by expanding on Level 1 topics and then go on to be introduced to more complex structures, like the past or the future tenses. The aim of the course is to develop understanding and communication to meet your needs in simple situations requiring a direct exchange of information on familiar and routine matters. You will develop your understanding of the countries' culture relating to the language you are learning.

This course leads to Level 3.

Level 3 Pre-intermediate

This course is for those who have successfully completed our Level 2 (or equivalent with other providers). The Pre-Intermediate class aims to build on and consolidate the knowledge of basic language structures and functions allowing you to express yourself more freely in everyday situations. You should already be familiar with the present, past and future tenses, although all language structures will be consolidated. The syllabus of the course may cover the following topics: giving and understanding information about holidays, travelling, talking about situations in the past, understanding descriptions of people and places, making and understanding arrangements. The course will enable you to recount past events, interact in a social context both formally and informally, express opinions and plans and give suggestions. You will also further develop your understanding of the countries' culture relating to the language you are learning.

This course leads to Level 4.

Level 4 Intermediate

This course is for those who have successfully completed Level 3 (or equivalent with other providers). You should be confident using the present, future and past tenses as well as some more complex structures. The intermediate class aims to revise and consolidate structures learned at pre-intermediate level, to broaden vocabulary and give you extra confidence. It will enable you to communicate freely on familiar matters regularly encountered in work, family, and leisure, describe experiences, events, dreams, hopes and ambitions, and give reasons and explanations for opinions and plans. You will also learn about the countries' culture relating to the language you are learning.

This course leads to Level 5.

Level 5 Upper-intermediate

This course is designed for confident and experienced learners who have completed our Level 4 or at least four years of part-time study before joining the class. You would have already studied all the main tenses and should be comfortable conversing in the target language but you would like to build up fluency and consolidate more complex grammar items. The main aim of the course is to increase your confidence in expressing your opinions on a wide range of topical issues. This course will also enable you to further develop your speaking, listening and written skills. The course syllabus may be structured around the following areas: lifestyles, entertainment, education, tourism, culture and traditions, stereotypes, past events and biographies. The cultural element is a crucial component of the course.

This course leads to Level 6.

Level 6 Advanced

This course is designed for advanced learners who have successfully completed our Level 5 (or have done at least five years of part-time study before joining the class) and feel confident discussing a broad range of topics in the target language. You would have already learnt all the tenses and advanced grammar structures so you should be able to apply them into context but further grammar clarification will also be provided. The main aim of the course is to boost your confidence in speaking and help you express yourself fluently and almost effortlessly by selecting adequate complex sentence forms to do so. The course syllabus may be constructed around the following areas: film, music, tourism and travel, history, events and their consequences, the environment, and health. The emphasis of this course is on speaking and in class you will get ample opportunity to practise your conversational skills through pair-work and group exercises. You will be given an insight into the countries' culture relating to the language you are learning.

This course leads to Level 7.

Level 7 Advanced Language and Culture Conversation Club (NEW)

This course is for fluent speakers who have successfully completed Level 6 (or equivalent number of years of part-time study with other providers). It is aimed at advanced learners who have a very good command of the language and feel confident conversing in various contexts and situations as well as using different forms of discourse. The course will cover a wide range of cultural topics which will be adapted to students' interests, such as art, literature, politics and current affairs, cinema, music, history, geography and country's institutions. You will be able to explore the language and culture of relevant countries by studying authentic materials taken from quality newspapers and magazines, video documentaries and audio sources. Students will have an opportunity to do their own research on topics relating to current affairs and personal interests so they can present and discuss them during the lessons. Practical advice on grammar will be integrated as appropriate.

More detailed, language-specific course outlines are available on our website so please refer to them for further guidance if you are unsure which level to choose.

Age Limit

The courses in this leaflet are aimed at adult learners (aged 19+). We will accept enrolments from people who are at least 19 years of age at the start of the course (with the exception of BHASVIC sixth formers who can also join our evening language courses). There is no upper age limit.

Frequently asked questions

Q: What do I do if I find myself on the wrong level?

A: Providing there is availability, we will be more than happy to move you up or down a level. *(Not available to students on holiday courses).*

Q: Can I join in with a class during the year?

A: If places are available, then yes! You will pay a pro-rata fee.

Q: Can I pay in instalments?

A: We are sorry but the full fee must be paid before the course starts.

Q: I am really interested in one of your courses, but can't attend on the day you are advertising - should I look elsewhere?

A: Yes and we will be happy to recommend other institutions. However, it is still worth registering your interest, as occasionally we create additional courses if there is a high demand, especially Level 1 courses.

Q: Do you have any courses starting later on in the year?

A: Yes! We offer 20-week Beginner Courses that commence in January as well as 10-week Holiday Courses starting in April.

Q: Will I need to put much work in outside of the lessons?

A: Even though our courses do not lead to a qualification, it is impossible to retain what you have learnt in class without doing some homework and revision throughout the course. We recommend about 20 minutes per day of exposure to the language, i.e. doing homework, listening to the radio, songs, watching a video or reading an article in a newspaper or magazine.

What our students think about language courses at BHASVIC

"The tutor is enthusiastic, friendly and helpful and obviously enjoys teaching. She gives us clear and useful activities that push us out of our comfort zones but stay within our abilities. I've never felt lost, bored or frustrated in any of her lessons"

"The variety of teaching resources: video, audio, interesting handouts and language laboratory all contribute to the lessons"

"Not having been in a class for 40 years I am surprised at how much I enjoy it!"

"The tutor is very skilful at teaching a class where the abilities of the students are mixed"

"The quality of the teaching is superb - the lessons are well planned, the teacher manages to involve everybody, pack as much as possible into the 90 minute session, and inject plenty of humour"
