ACTION PLAN 2017 ~ 2018

Topic	Action	Target / Measure	Timescale/ Deadline	Responsibility	Actual Result
Energy	Continue to operate a replacement energy saving lighting system. Student Union to promote 'Switch it off fortnight this is a campaign to encourage other students to turn off PCs and lights. This will also be run for Staff.	To reduce the amount of energy being use as a College community	Summer 2018	Whole College	Continue with ongoing practices by looking at obtaining the best energy deals and continue to monitor the metre readings.
Litter Stephen to get back to Debbie	Student involvement in promoting litter reduction. Student Union to contact Dirty Beach (this is a collaboration between two Brighton-based artists McCurdy and Hanksy) to create a sculpture of litter collected. A change in the Student College Contract that reflect this	Reduction in amount of litter having to be cleared from College site	April 2018	Student Union	SU to promote through the Tutor period and via pop ups Student union to contact Dirty Beach and create a sculpture out of litter collected by the students.
Waste Minimisation/ Recycling	Student Union to promote the recycling banks around College via a 'pop up' when students log on to the computers and information in the Student Bulletin and via Tutor Groups. There are more than enough bins/containers on site to cover nearly all recycling	Possible saving in the volume of recycling sent off site To promote better use of where items can be recycled	October 2017	Whole College	Set up a recycling area and promote to Students and Staff via SU, Staff briefing and pop ups
Water	We will continue to monitor water usage, with a view to reduce usage. We have increased/replaced the water fountains around College to ones that refill water bottles. The whole site has had installed new water machines with 2 new ones (library and Student services) including a 3 fill bottle in the Walkway and the Sports Centre. We have a total of 14 water machines on site.	Show a reduction in consumption	On going	Estates Manager	Keep on doing what we are doing, and look at bench marking data with other Colleges.

Topic	Action	Target / Measure	Timescale/ Deadline	Responsibility	Actual Result
Transport	Extend one cycle shelter and put in another so that we encourage more Students and Staff cycle to College	Promote cycle to college week	September 2017 *June 2018	Estates Manager	Cycle racks are being well used and *BHASVIC offers the cycle to work scheme for staff.
Healthy Living	Increase Healthy Options on menu. To include a greater variety of healthy "street" type food, i.e. Burritos, Noodles and rice dishes. All to be served with a side of vegetable or salad. To review layout of service area and display of products.	To offer the students healthier options and to display visually appealing food to include a greater variety of fresh juices and fruit. A student survey will be distributed to review the current service, and to ascertain student needs from their feedback. Pizza has been added as a healthier option to the fast food selection, with a wide selection of vegetable toppings	July 2018	Catering Manager	The catering Manager will work closely with her team, and Student Union representatives to establish foods/ dishes to be included in the menu. To increase the range of vegan and coeliac food options, together with extending the range of healthy "snack" items such as yoghurts, juices and fruit. Installed 3 new brand free vending machines to fill with healthier snacks.
Biodiversity	We have increased the number of wildlife by introducing more bird boxes flutter butter feeders/fat balls and planting bee and butterfly friendly flowers in the nature garden	Progress recorded on the Environmental noticeboard	Ongoing	Whole College/Student body	Another wild flower area has been planted that will encourage bees and butterflies. We will continue to plant wild flower seeds by the sports centre as well. More bird boxes and flutter butter feeders have been put up to encourage more birds to the site.
School Grounds	Piazza planted with trees from all over the world. Student Union to increase number of wildlife by introducing more bird boxes/fat balls and planting bee and butterfly friendly flowers in the nature garden		Ongoing		Wild flower area planted that encourages bees and butterflies, increase in bird boxes and fat balls system installed and to be monitored by students.
Global Perspectives	College trips are undertaken to explore this issue. Instillation of 3 elephant pumps in Zimbabwe, Toilet twinning with Bangladesh, Uganda, India & Liberia Continue to work with Aqua fund & Water aid to help transform lives with improved sanitation and hygiene		Ongoing	Head of Curriculum/ Student Union	Feedback from Aqua fund & Water aid re statics on our contribution.
Pupil Participation	As part of the A level curriculum; Student Body Hero's Litter Pick Waste Week		On going	Head of Curriculum	Toilet twinning projected to give toilet facilities in under developed countries, Students will be running a Hero's Litter Pick event
