

## **BHASVIC: Arrangements for obtaining stakeholders' views on the determination and periodic review of the educational character and mission of the institution and the oversight of its activities.**

At BHASVIC we believe it is essential to know the views and experiences of students, their parents, staff and other stakeholders in order to continue to improve the provision of the college and achieve excellent outcomes.

The Instruments and Articles of Government of Sixth Form College Corporations require the publication of arrangements for consulting with stakeholders at the college on the determination and periodic review of the educational character and mission of the College and the oversight of its activities.

The College is committed to engaging with all stakeholders to obtain their views and opinions by means of a wide range of mechanisms, which include providing information, obtaining feedback and consulting on issues both face to face and via other methods of communication. The following are examples of such mechanisms (but do not provide an exhaustive list):

**We inform through:** Meetings, letters, emails, social media, posters, our website / VLE / intranet, one-to-ones, college events, procedures and policies

**We consult and obtain feedback through:** College and external surveys, focus groups, representation systems, one-to-ones, working parties, relevant policies and procedures

**We directly involve staff parents and students through:** Membership of corporation and cross-college committees, the Student Union Executive and Student Council, meetings with Senior Managers.

Stakeholder views also feed directly into the College's Quality Assurance processes, including the Self-Assessment Review and Quality Improvement Plans, which are also monitored regularly by the Corporation.

The arrangements for obtaining stakeholder views are reviewed by the College on a regular basis, to ensure that they meet the needs of the Corporation, in obtaining the views of Staff, Students and Parents on the educational character and mission of the College and its activities. The satisfaction levels of stakeholder groups are reported on annually in the College Annual Report.
