

BHASVIC

June 2025

School of Chemistry - University of Leeds Residential
Chemistry & Physics Department
May 2026

Dear Parents/Carers

Running alongside the curriculum BHASVIC aims to provide enriching trips linked to students' studies that not only bring their studies to life but also encourage independence and an opportunity to make new friends and have new experiences.

As part of A level Chemistry, the department offers A1 students who are considering reading Chemistry or a chemistry-related degree at university the opportunity to visit the School of Chemistry at the University of Leeds and undertake an Organic Chemistry practical. This is an overnight trip which we expect to cost around £200 for travel, bed and breakfast accommodation, lunch dinner and evening entertainment.

If your young person is interested in joining this trip, you do not need to do anything at this stage. We will contact students and parents/carers later in the academic year with all the finalised details, but we wanted to let you know about this opportunity as far in advance as possible, so you have time to financially plan if you wish.

All payments for trips are through our BHASVIC ParentPay account, you will be sent details on how to activate your account once your young person has enrolled, we encourage you to set your account up as soon as possible on receipt of these details to avoid any delays later.

Please be aware that students can only partake in a residential that is organised by the department/s that their courses fall under and that due to the number of students / residential places ratio, students will only be able to apply for one residential. Students are chosen by random selection.

We hope that you have a lovely summer, and we will be back in touch with more details of this trip.

Kind regards
Chemistry & Physics Department
