

RISK ASSESSMENT – COVID-19 - COLLEGE RE-OPENING
REFERENCE 20202021002

Risk assessment - topic/area covered	
Location(s):	BHASVIC – All Buildings and floors
Department/staff:	All teaching/ support staff (including evening classes), evening & weekend lets and contractors
Tasks/activities:	RETURN TO COLLEGE during COVID-19 PANDEMIC – STEP 4 (Autumn term, September 2021)
Other information:	This Risk Assessment is to be used together with each Department Risk Assessment and any activity that require an specific Risk Assessment

Risk assessment sign off					
Prepared by:	Carlos Bedoya	Signature:	CBM	Date:	20-11-20
Reviewed by:	SMT	Signature:		Date:	23-11-20
Date for review:	This risk assessment should be reviewed if additional risks not covered are identified or if there is any reason to suggest that the control measures are deemed to be insufficient.

Government's LOCAL COVID-19 ALERT LEVEL for Brighton & Hove	Most restrictions have been lifted and the public are being asked to take precautionary measures such as face coverings, attention to symptoms, etc.
Lockdown in Place [YES/ NO]	NO

RISK ASSESSMENT TOOLS

This risk assessment template includes the national **COVID-19** alert tool which can be used as a guide to the likelihood of infection (**L**) based on the **r** number. This rating will be adjusted either up or down based on infection rates and gives guidance on the likelihood of infection **without control measures** which can then be applied to the risk assessment. In most cases it is reasonable to consider that the introduction of control measures will reduce the likelihood of infection (**L**) to one stage below the National Alert Tool.

The risk assessment has been written to mitigate the risk from **COVID-19** and should be used alongside any other existing risk assessments already in place within the College. Managers/HODs/Teachers should use the department risk assessment template for their own settings and use that as a tool to determine the control measures that can be put in place within their areas to allow the service to function safely.

Links to the government and other guidance are at the end of the document. Please continue to check that you are using the most up to date versions of this guidance.

To calculate Risk Rating (*R*): assess the likelihood (*L*) of an accident occurring against the most likely impact (*I*) the accident might have, taking into account the control measures already in place. **L x I = R**

Risk Matrix

National Covid-19 Alert Tool	Likelihood (L)	X	Impact (I)
1	Almost Impossible	1	Insignificant (minor injury, no time off)
2	Unlikely	2	Minor (non-permanent injury, up to 7 days off)
3	Possible	3	Moderate (injury causing more than 7 days off)
4 Current Level	Likely	4	Major (death or serious injury)
5	Almost Certain	5	Catastrophic (multiple deaths)

Risk rating guidance	Likelihood (L)	5	5	10	15	20	25	Likelihood (L) x impact (I) = Risk rating (R).
		4	4	8	12	16	20	
		3	3	6	9	12	15	
		2	2	4	6	8	10	
		1	1	2	3	4	5	
			1	2	3	4	5	

Risk Ratings

Low= 1-3	Moderate= 4-7	Significant= 8-14	High= 15-25
----------	---------------	-------------------	-------------

Guidance. When completing a risk assessment, you should:

1. Identify the persons at risk and the significant hazards.
2. Calculate an initial R for the activity.
3. Identify risk control measures that reduce the risks to an acceptable level.
4. Calculate a revised R - you should consider how much safer the task will be if the control measures are followed. Here, you should consider changing both the likelihood (L) and the impact (I) ratings.

Note. Ideally, you should look to reduce the risks so that the task can be classified as "low risk".

Personal protective equipment (PPE) assessment

Government Guidelines

- PPE is only needed in a very small number of cases (if already normally used with child/if child is symptomatic)
- PPE will be required for Cleaners and First Aiders

Note 'face coverings' are not considered in the same category as PPE compliant face masks.

In many instances, you will be able to reduce risks further by asking staff/others to wear/use PPE. You should identify which items are required for the task here:

Type of PPE:								
	Head	Foot	Eye	Hand	Hearing	High-visibility vest	RPE	Fall arrest
	Yes	Yes	Yes	Yes		Yes	Yes	Yes
Additional requirements (list here):	<p>Due to the current situation, cleaning staff to use disposable protective gloves. In line with government advice we are not mandating face coverings on site – we will encourage staff/students to wear them, especially in busy areas – but ultimately it is down to individual choice.</p> <p>Individuals should do what makes them feel safe/comfortable – and that includes maintaining distancing as well as wearing face coverings – but this will not be enforced centrally. First aiders should wear appropriate PPE including face masks. Other PPE to be supplied and specified in Departmental Risk assessments</p>							
<p>Note. PPE must only be considered, when other control measures, such as guarding, local exhaust extraction, preventing noise at source, eliminating the need to work at height etc. are not possible. PPE should always be considered as a last resort option. PPE should only be worn when there is reasonable justification for doing so.</p>								

IMPORTANT INFORMATION SPECIFIC TO THIS RISK ASSESSMENT

COVID-19 General advice	
<p>If you have symptoms of COVID-19, you should arrange to have a PCR test as soon as possible. This still applies even if you have received one or more doses of COVID-19 vaccine.</p> <p>The symptoms are:</p> <ul style="list-style-type: none"> - A high temperature - New continuous cough - A loss of, or change in, normal sense of taste or smell (anosmia), however mild. <p>For most people, COVID-19 will be a mild illness. However, if you have any of the symptoms above, even if your symptoms are mild, stay at home and arrange to have a test.</p> <p>If you are symptomatic...</p> <ul style="list-style-type: none"> - If you have symptoms of COVID-19 however mild, you must self-isolate for at least 10 days from when your symptoms started. You should arrange to have a test to see if you have COVID-19. Do not go to a GP surgery, pharmacy or hospital. <p>Household</p> <p>If you are fully vaccinated or aged under 18 years and 6 months you will not be required to self-isolate if you are a contact of someone who has tested positive for COVID-19.</p> <p>If you have received one or more doses of COVID-19 vaccine</p> <p>If you have symptoms of COVID-19 or have received a positive test result, you should still self-isolate even if you have received one or more doses of COVID-19 vaccine. This will reduce the risk of spreading infection and help to protect other people.</p>	<p>If you test negative...</p> <p>You do not need to self-isolate if your test is negative, as long as:</p> <ul style="list-style-type: none"> - you feel well – if you feel unwell, stay at home until you’re feeling better - If you have diarrhoea or you’re being sick, stay at home until 48 hours after they’ve stopped. <p>If you are not experiencing symptoms but have tested positive for COVID-19...</p> <ul style="list-style-type: none"> - If you develop symptoms of COVID-19, stay at home and self-isolate immediately. If you have a positive test result but do not have symptoms, stay at home and self-isolate as soon as you receive the results - After 10 days, if you still have a temperature you should continue to self-isolate and seek medical advice. <p>Ending self-isolation...</p> <ul style="list-style-type: none"> - You do not need to self-isolate after 10 days if you only have a cough or loss of sense of smell or taste, as these symptoms can last for several weeks after the infection has gone.

DETAILED ASSESSMENT

RISK ASSESSMENT REF. 20202021001										
Activity		Persons at risk	Significant hazards	Initial			Risk control measures	Residual		
				L	I	R		L	I	R
1	Health & Safety arrangements	- Teaching Staff - Support Staff - Contractors	Health & safety arrangement no in line with government COVID-19 guidance	2	5	10	Statutory Health & Safety checks of the premises by HSO and Estates Manager are carried out before full reopening the College to staff and students. <ul style="list-style-type: none"> - Fire safety in place, this includes fire notices, firefighting equipment, training, supervision and instruction and testing (alarm test, PAT testing, fire dills, fire evacuation notices, etc.) - Health and safety statutory training up to date (fire wardens, manual handling, working at high, cleaning and hygiene practices COVID-19, etc.) - Legionella control up to date (Hot and cold water systems). - Ventilation inspection. - Gas safety inspection. - Kitchen equipment maintenance and inspection. - Security including access control and intruder alarm systems. - Provide PEEPs (Personal Emergency Evacuation Plans) to those staff that require one prior returning to College. - Supply PPE (Personal Protective Equipment) according to the activity. - Prepare department and individual staff risk assessments. - DSE (Display screen equipment) assessment to be done by each member of staff when returning to work. - First Aid provision. - Asbestos management. 	1	5	5

				L	I	R		L	I	R
4	Summer Holidays return (Autumn Term)	<ul style="list-style-type: none"> - All Staff - All Students - All contractors and visitors - Members of the public 	Site not prepared for return of more pupils/staff	3	5	15	Risk assessment(s) reviewed and shared with staff and safety representatives prior to full opening	1	5	5
							Ensure that those who have coronavirus (COVID-19) symptoms, or have tested positive in the last 10 days, isolate until PCR test result. If you are fully vaccinated or aged under 18 years and 6 months you will not be required to self-isolate if you are a contact of someone who has tested positive for COVID-19.			
							Encourage staff to feed back any concerns regarding the measures in place via statement at sign-in, meetings and update notices.			
							Ensure good ventilation and in classrooms, offices and common areas, improve this by opening windows. Elms building ventilation system complies with COVID safety, therefore it is permitted to have windows closed, but recommended to keep doors open. Fans – use of fans discouraged, as can spread contaminated air from one person onto another – <i>and only used after considering other ventilation and heat reducing measures. Sited (e.g. under/in an open window) so drawing and pushing fresh air around a room (up in to an unoccupied space) and not directed/blowing air from one person to another</i>			
							Movement around College: <ul style="list-style-type: none"> - Avoid creating busy corridors, entrances and exits; recommend use of face coverings in busy areas. - Reduce possible contact between groups - Identify any ‘pinch-points’ - Use of DoorGuards or Mag-lock devices linked to fire alarm system to keep regularly used doors in an open position (this is permitted by fire regulations during the COVID-19 pandemic). - Fire doors must NOT be wedged open. 			
Review induction information for all staff, pupils and essential visitors/contractors who require access to site.										
Minimise number of resources and furniture etc. to enable cleaning, however, classroom based resources (e.g. books/equipment) can										

						be used as long these items are cleaned regularly (after each use), along with all frequently touched surfaces.			
						Individual & very frequently used equipment – e.g. pencils/pens – not shared (staff/pupils have own items).

Activity		Persons at risk	Significant hazards	Initial			Risk control measures	Residual		
				L	I	R		L	I	R
5	Cleaning/ Hygiene	<ul style="list-style-type: none"> - All Staff - All Students - All contractors and visitors - Members of the public 	Transmission of the virus	4	5	20	Cleaning/hygiene arrangements enhanced in line with government guidance: Guidance on cleaning in non-healthcare settings. Follow the 'Catch it, Bin it, Kill it' principles for the disposal of tissues.	5	5	
							General waste bins in classrooms/other locations are available to dispose wipes and tissues used. Availability of soap and hot water in every toilet. Availability of hand sanitiser in all classrooms and office spaces.			
							Estates manager [Lester Grice] to ensure that appropriate cleaning resources/protective clothing is ordered as required following DfE guidance.			
							The College should ensure an adequate supply of essential supplies and PPE are well stocked in situ.			
							Cleaners to be trained on Cleaning COVID-19 guidelines and College protocols. All working station are supplied with disinfection products for their users.			
							All Departments to include in their Risk Assessments all essential items to comply with COVID guidelines according to their activities, this items will be authorised by the Health and Safety Officer.			
							Estates team circulating at prescribed times around the College with disinfecting guns (UV light and sanitiser), maintaining standards of disinfection on touching points, and toilets.			

Risk assessment Ref. 20202021001										
Activity		Persons at risk	Significant hazards	Initial			Risk control measures	Residual		
				L	I	R		L	I	R
6	Management of Symptomatic individual at College	<ul style="list-style-type: none"> - All Staff - All Students - All contractors and visitors - Members of the public 	Symptomatic Individual	4	5	10	College tell staff, students, parents, carers or any visitors (including suppliers/providers) <i>not</i> to come in to College if they are displaying any symptoms of coronavirus, have tested positive or been told to self-isolate or required to quarantine – see NHS When to self-isolate and what to do.	1	5	5
							A First Aider shouldn't be called for a Symptomatic case, unless seriously ill or injured or their life is at risk.			
							Wherever possible, the symptomatic person should be collected by a member of their family or household.			
							PPE should be worn by staff caring for the student/staff while they await collection, if direct personal care is needed and a distance of 2 metres cannot be maintained (e.g. student with complex needs).			
							If a student/staff is awaiting collection/transport, they should be moved, if possible, to a room where they can be isolated behind a closed door (preferable First Aid Room). Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.			
							If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible. The bathroom should be cleaned and disinfected using standard cleaning products before being used by anyone else.			
							Everyone should wash their hands thoroughly for 20 seconds after any contact with someone who is unwell.			
							Clean immediately the affected area with normal household disinfectant after someone with symptoms has left.			
If the person needs to use other system of transport, the following precautions should be taken: Use a vehicle with a bulkhead or partition that separates the driver and passenger The driver and passenger should maintain a distance of 2 metres from each other The driver should use PPE, and the passenger should wear a face mask if they are old enough and able to do so.

Activity		Persons at risk	Significant hazards	Initial			Risk control measures	Residual		
				L	I	R		L	I	R
7	Social Distancing	<ul style="list-style-type: none"> - Staff - Students - Families - Visitors - Contractors 	Transmission of the virus	3	5	15	Minimising contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or have tested positive in the last 10 days isolate, while those who have someone in their household who does/has, take a PCR test. . The college will authorise absence for those choosing to isolate if a household member is positive and will support remote learning where possible. <i>If you are fully vaccinated or aged under 18 years and 6 months you will not be required to self-isolate if you are a contact of someone who has tested positive for COVID-19.</i>	2	5	10
							Individuals are advised to limit interactions in shared rooms/social spaces.			
							Staff to maintain distance from pupils if they choose to, staying at the front of the class, and away from their colleagues if so.			
							Avoid close face-to-face contact and minimise time spent within 1 metre of anyone			
							Contractors/other visitors only allowed on site with prior arrangement for and ideally, outside College hours e.g. emergency or statutory compliance works. Records kept of all visitors for a minimum of 21 days. Arrangements of COVID protocols checked/agreed in advance.			
							Ensure toilets do not become crowded by limiting their capacity of who use the toilet facilities at one time - different groups don't need allocated toilets but these should be cleaned regularly and students encouraged to clean hands thoroughly			
							College to inform students, parents, carers or any visitors, such as suppliers/providers not to enter the College setting if they are displaying any symptoms of coronavirus or have tested positive			
							College to request that parents/carers of students closely monitor the student for signs of COVID-19 symptoms in line with PHE, NHS, Government & DfE guidelines			
							Ensure symptomatic student/staff follow COVID-19 General guidance on this document.

Activity		Persons at risk	Significant hazards	Initial			Risk control measures	Residual		
				L	I	R		L	I	R
8	Face covering	- Teaching Staff - Support Staff - Students - Contractors	COVID-19 infection by aerosol	4	5	25	In line with government advice we are not mandating face coverings on site – we will encourage staff/students to wear them, especially in busy areas – but ultimately it is down to individual choice. Individuals should do what makes them feel safe/comfortable – and that includes maintaining distancing as well as wearing face coverings – but this will not be enforced centrally.	2	5	10
9	Student Attendance	- Students	COVID-19 infection	3	5	15	Remote learning platform used and appropriate support provided by College.	1	3	3
							Appropriate differentiation to cater for all ability levels including pupils with SENs.			
							Students without access to a computer/tablet/phone to inform the College so that learning and resources can be arranged.			
							Follow DfE technical guidance for Colleges, regarding the recording of attendance and absence			
10	COVID-19 Guideline updates	- Teaching Staff - Support Staff	Lack of applying most up to date information	2	4	8	Government guidelines are updated regularly, the Principal, SMT and H&S officer monitor these appropriately. Updates are found on BHASVIC website FAQ section	1	2	2
11	Transport to work	- Teaching Staff - Support Staff - Contractors	Transmission of COVID-19	2	3	6	Staff should read the advice on travelling to work safely and determine whether they are able to do so.	1	2	2
							New parking area and new bicycle shelter has been allocated behind the Sport Centre.			
							When travelling, you should walk or cycle if you can, but where that is not possible drive or use public transport following advice on travelling by public transport poster .			
12	First Aid	- Teaching Staff - Support Staff - Contractors	Symptoms at the College	3	3	9	A First Aider shouldn't be called for a Symptomatic case, unless seriously ill or injured or their life is at risk.	1	3	3
							New first aid room is located in Room 24a Main Building			
							First Aiders should follow guidance given by the Health and Safety officer regarding COVID-19 Secure procedures on First Aid No additional PPE is needed because of coronavirus (COVID-19) for anyone who does not have coronavirus (COVID-19) symptoms, unless close contact is required.			
							Orange First Aid stations are now fitted on the entrance of each			

						<p>building in the College. This contains normal first aid kits and a COVID-19 PPE kit.</p>			
						<p>Duplicated PPE for First Aiders and Casualty is supplied on the First Aid stations.</p>			
						<p>Any PPE used to be disposed in the yellow bin in the First Aid room for medical waste. Disposal of this bin bag according with College cleaning COVID procedures.</p>

13	Fire evacuation	<ul style="list-style-type: none"> - Teaching Staff - Support Staff - Contractors 	Fire	3	5	15	In case of fire or fire alarm activation, everyone to use their nearest available exit route, even if a one way system has been developed for day-to-day attendance.	1	5	5
							If the recommended social distancing in corridors and assembly points is not achievable, staff should manage this to ensure the greatest separation available is utilised.			
							Any doors in the setting that are heavily used may be held open using 'DorGuards' or magnetic catches linked to the fire alarm to enable them to close when the alarm activates. Fire resisting doors should not be held open by using wedges or other equipment			
							Staff to be informed of all changes to the fire evacuation procedures (if any changes have taken place) A fire drill is recommended, to practise the old/new routes.			
							PEEPs that may be in place for staff who need assistance in evacuating the building should be reviewed.			
							College closure protocols followed including seeking advice from and informing Public Health England. communication protocols for staff/ parents/ contractors etc.			
14	Visitor to College	<ul style="list-style-type: none"> - Teaching Staff - Support Staff - Contractors 	Transmission of COVID-19	5	4	20	Visitors to the College to adhere by college Covid protocols.	1	5	5
							Visitor contact details to be kept for 21 days and then destroyed.			
							Hand washing/sanitising on arrival and clear guidance to visitors of need to use/ location of wash station/ hand sanitiser			
							No visitors allowed into college if they are displaying any symptoms of coronavirus			
							Procedure for delivery of food and other supplies so that deliveries are left outside			
							Maintenance/ repair work can take place if safe to do so during operational hours and usual safeguarding and contractor management procedures apply.			
							Contractors visiting premises – let them know arrangements in advance of visit Office/ reception staff to log their arrival and departure from site.
