Responsible
Effective learners take responsibility for their own progress. They find out what they need to do in order to improve and are organised enough to do it.

Resilient
This is the capacity to recover quickly from difficulties. When you get behind with your work or receive a bad mark, resilience allows you to bounce back and learn from your mistakes.

Resourceful
Use their initiative to help themselves improve. "Knowing what to do, when you don't know what to do".

Risk takers
Prepared to have a go.

Respectful
They respect their teachers and peers and form relationships based on the belief that all teachers and students are working towards the same goal: to maximise learning for everyone

Reflective
Learn from their experiences.

BHASVIC and the 7 C's – Our Strategic Aims

IMPORTANT DOCUMENT – PLEASE READ

Our vision is for BHASVIC to be a contemporary creative learning community. We value learning, respect, inclusivity and collaboration. In choosing to study at the college we ask you to sign this contract, demonstrating your commitment to share and promote the core values of the college.

Behaviour - BHASVIC is a learning environment

We expect that the behaviour of all members of the college will support a calm and purposeful atmosphere which respects others and enables effective learning to take place.

Happy - BHASVIC promotes wellbeing

We understand that emotional health and wellbeing supports positive learning and achievement. As members of the college we will take care of ourselves and others, recognising the impact of our actions and choices in maintaining welfare, safety and happiness.

Active - BHASVIC expects active participation to help everyone achieve their full potential

We will make the most of our time at college. We will attend all timetabled commitments and arrive on time, fully prepared to engage positively in all activities. We will look for ways to broaden experiences beyond the purely academic, and take opportunities to get involved in wider college enrichment.

Successful – BHASVIC supports a 'high challenge: low threat' ethos

We recognise and celebrate success in all forms, but understand that success usually comes from hard work, grit and determination. We will not be afraid to learn through failure. We will work hard and give of our best, following the '6 Rs' to become reflective, resourceful, resilient, responsible and respectful risk-takers.

Valued – BHASVIC values respect and inclusivity

We celebrate the fact that college is a diverse community. We value all members and will treat everyone with fairness and respect, expecting adherence to our established codes of conduct.

Independent – BHASVIC encourages independence

We aim to develop the skills for independent lifelong learning. We know we need to become well-informed and innovative thinkers who are able to access the learning tools we need throughout our time at college. We aim to know how and when to ask for help, but will seek to develop self-discipline and self-reliance in order that we can take this forward in our lives beyond college.

Community – BHASVIC believes in uniting for the common good

We take pride in belonging to the college and recognise we are ambassadors for the good name and reputation of the college as a whole. This applies both on and off-site and on and off-line. We will show consideration for others and actively respect the college environment, and that of the wider local area, engaging positively with our neighbours and the community.
