

Graphic Design Communication

Moving on day- Summer Homework

The idea of this task is to encourage you to **look** to **simplify** and to **record**. These are valuable skills for a graphic designer.

1. Record at least 8 different letterforms found within the environment. They could be taken from objects or graffiti, street signs and logos or taken from a magazine. Try to look at a variety of different styles.
2. Present your letter forms in your fold out booklet. This could be designed on the computer, montaged or drawn. Think about how you place each letter form, within each of the 8 'frames'.

Bring your new booklet with your name clearly stated to your first lesson in September.

Enjoy
