

Computing

Higher Education at BHASVIC

In Sept 2018, 44 BHASVIC students went onto study Computing-related degrees at 23 different universities

Computing degrees often combine with other subjects including Maths, Media and Graphics.

Students can study a variety of Computing and IT qualifications at BHASVIC through both A level and BTECs.

From games developer to manager of IT and communications services, there are a range of opportunities as a computer science graduate

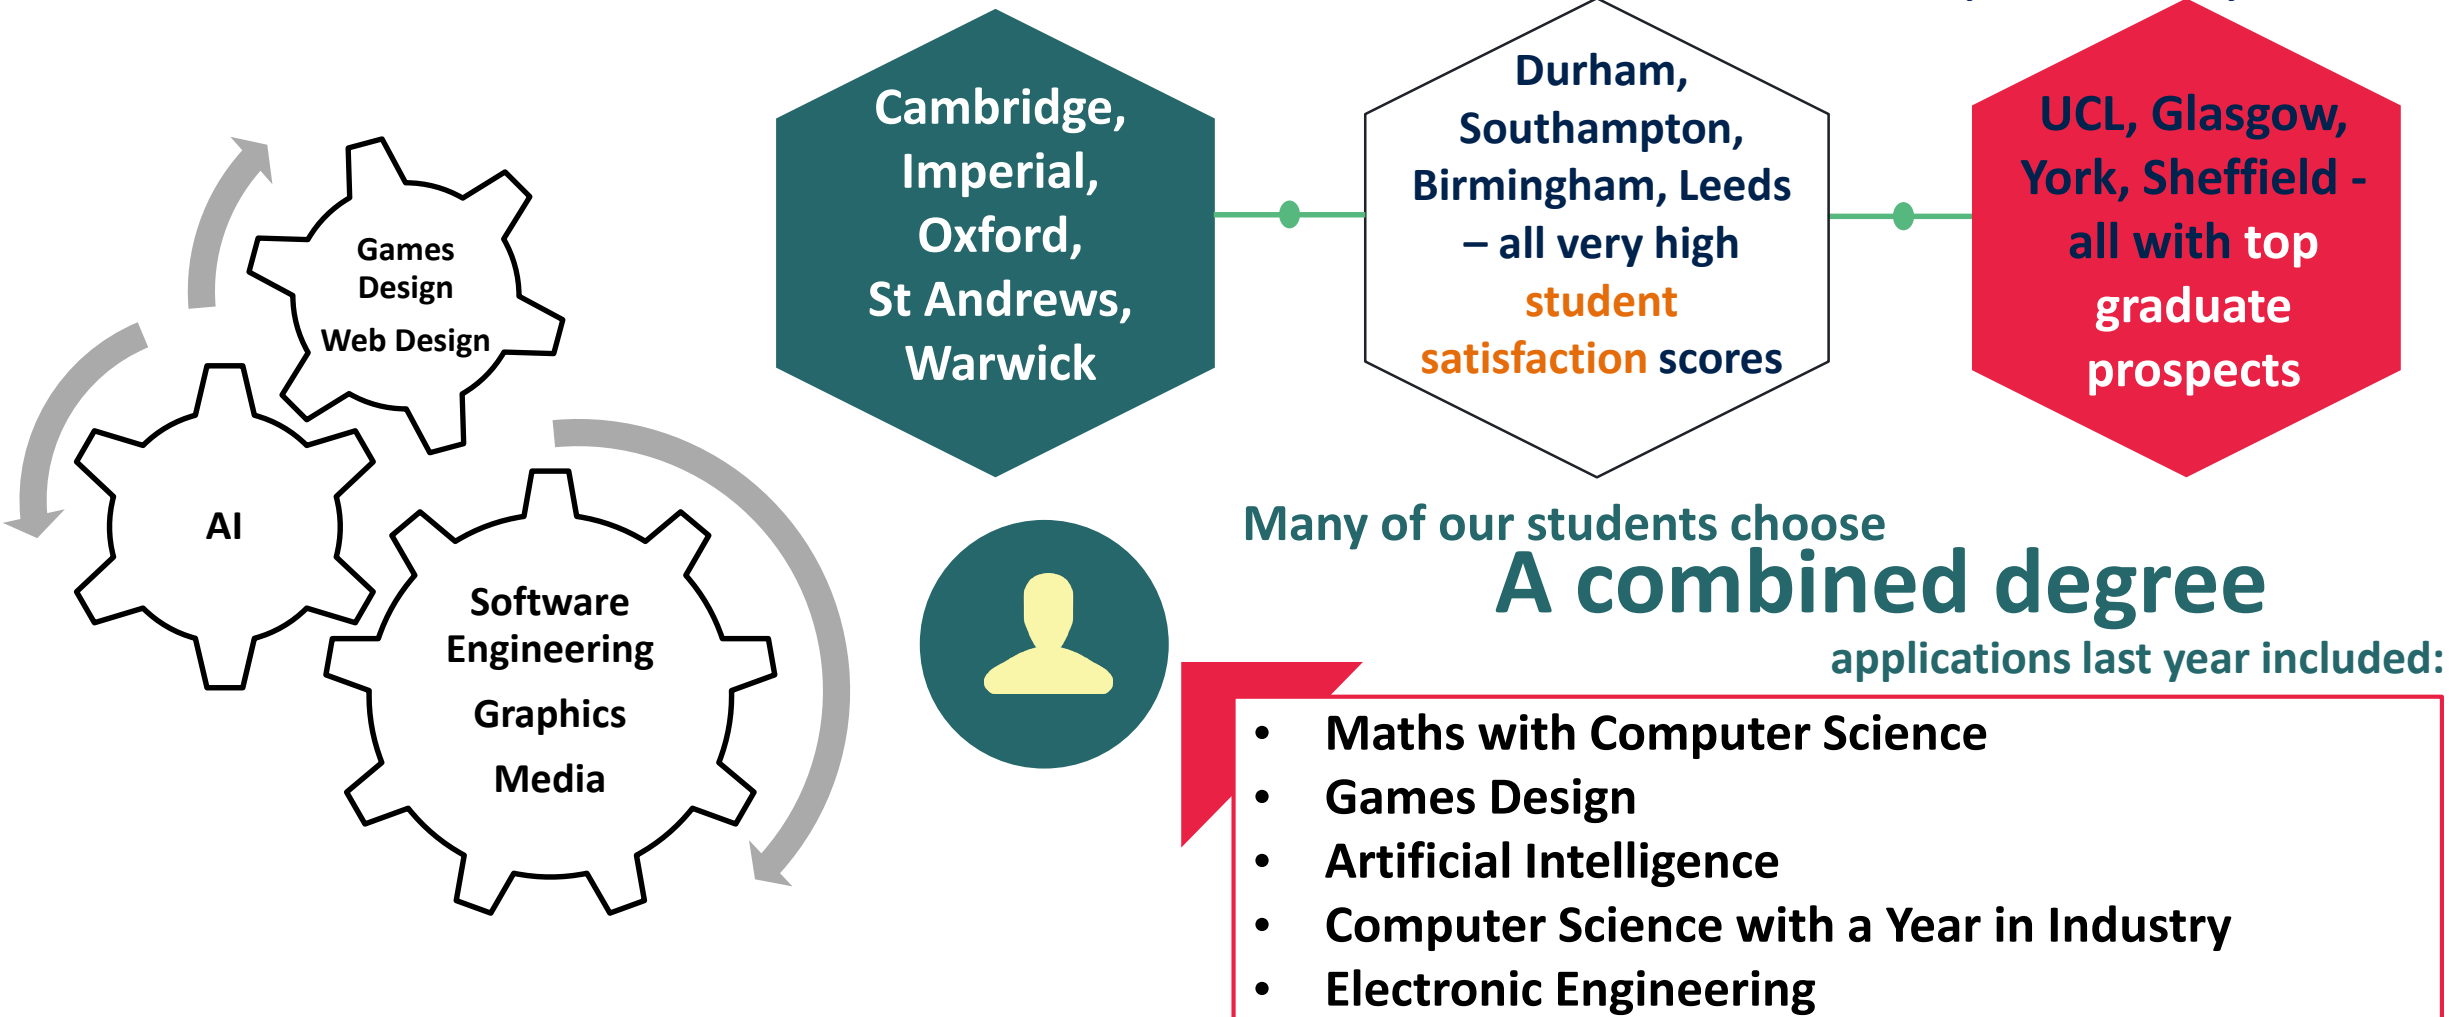

Jobs where a Computing degree would be useful include:

- Applications developer
- Forensic computer analyst
- Penetration tester
- Systems analyst
- Digital copywriter
- IT sales professional
- Nanotechnologist
- Network engineer
- Social media manager
