## Higher Education at BHASVIC

**In Sept 2018, 45 BHASVIC students went onto study an Engineering-related degree at 25 different universities**

Engineering degrees come in a wide variety of choice and cross all science subjects, Maths and Computing.

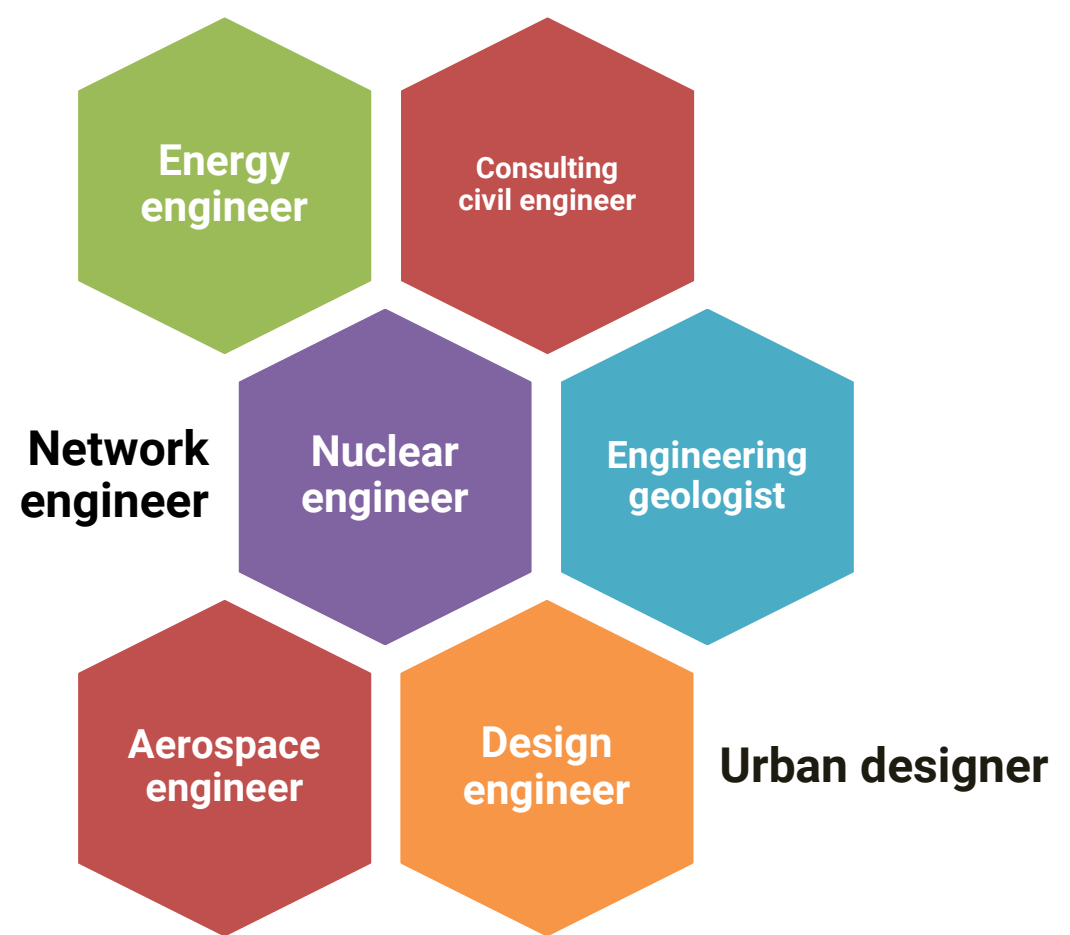

Each year we have a high number of students choosing to apply to an increasingly useful and vocational degree choice.

**Engineers use their analytical skills and aptitude working with ground-breaking technologies to enhance people's lives**

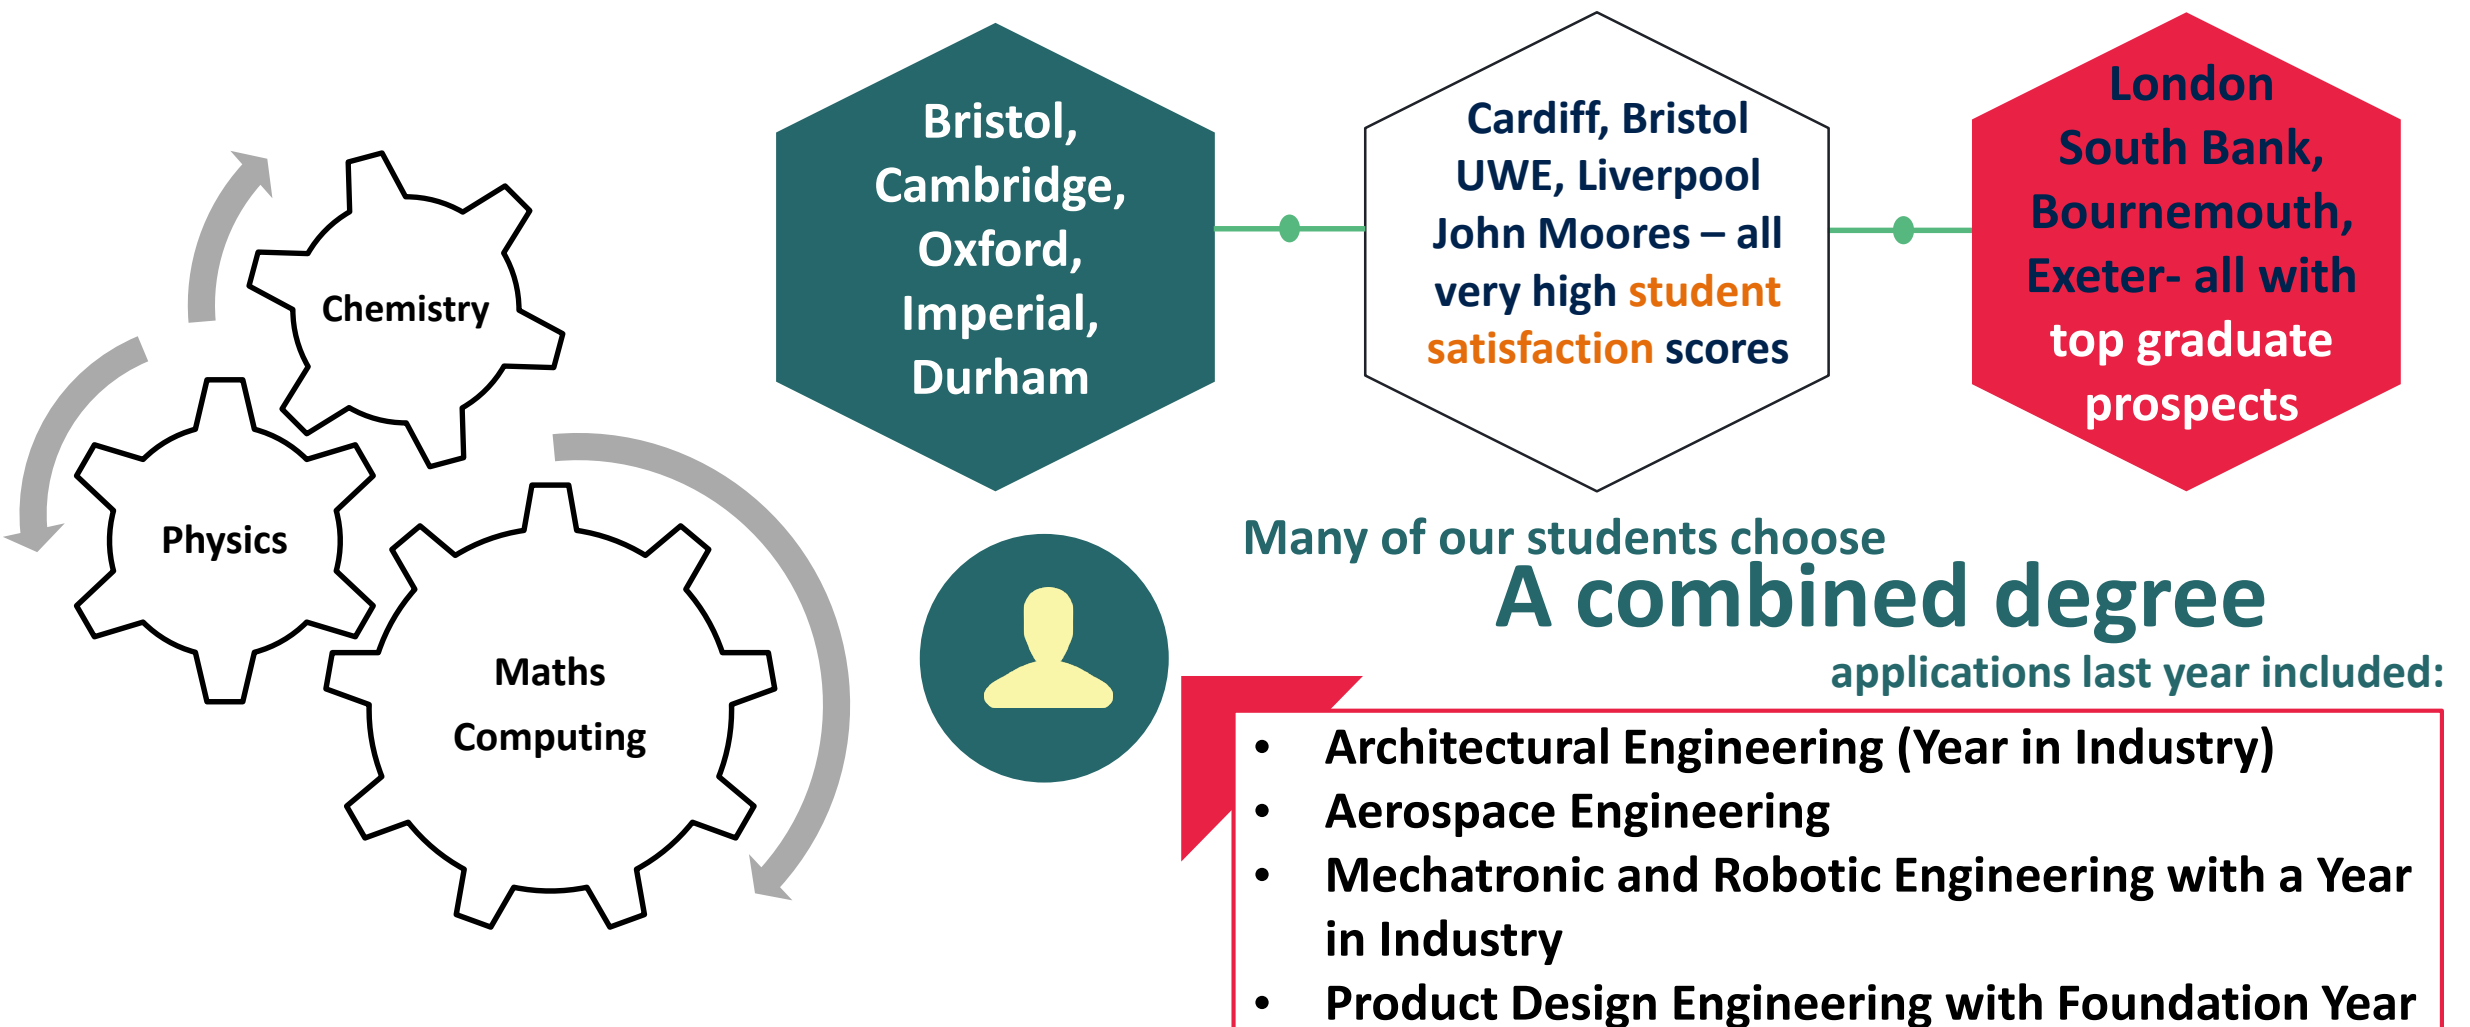

Jobs where an Engineering degree would be useful include:

- Building services engineer
- Environmental consultant
- Sustainability consultant
- Broadcast engineer
- Electrical engineer
- Electronics engineer
- Project manager
- Product/process development scientist

### Top 10 Universities for Engineering

Complete University Guide 2019
