

Health & Social Care

Higher Education at BHASVIC 2019

In Sept 2019, 49 students went onto study healthcare at 24 different universities, 11 students went straight onto teaching degrees

Health & Social Care BTEC is an ideal qualification for those students thinking of studying for a health-care, social work or teaching related degree. It combines theory with practical skills & work experience.

Should I study Healthcare / Education / Social Science at degree level?

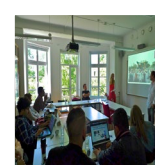

With such a range and variety of choice there are plenty of opportunities to study for a career in the public sector

Teaching methods will vary but will often involve much placement work and experience in the field. You will also be expected to spend time at uni in lectures and seminars.

Types of degree

- There is a huge range of healthcare degrees
- Nursing and specialism e.g. Adult
- Midwifery
- Podiatry
- Pharmacy
- Physiotherapy
- And many more

Entry Requirements

- Will vary dependent on the degree pathway that you wish to take.
- These degrees are vocational and usually dependent on interviews
- Also consider foundation degrees

Example modules

- Observing society
- Urban sociology
- Applied ethics
- Health issues and ethics
- Work-based learning
- Personal development
- Developing skills for practice
- Managing complexities in care delivery

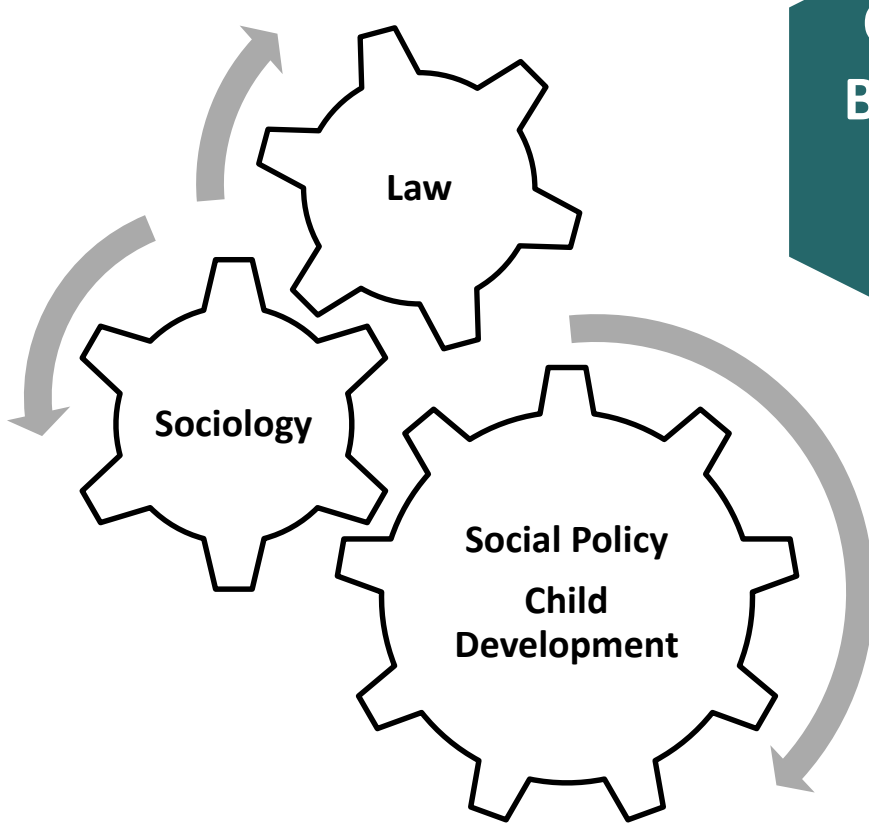

Top 10 Universities for Health / Education
