

Mathematics

Higher Education at BHASVIC

In Sept 2018, 23 BHASVIC students went onto study Maths-related degrees at 24 different universities

In addition, 11 students went onto study a combined Maths degree.

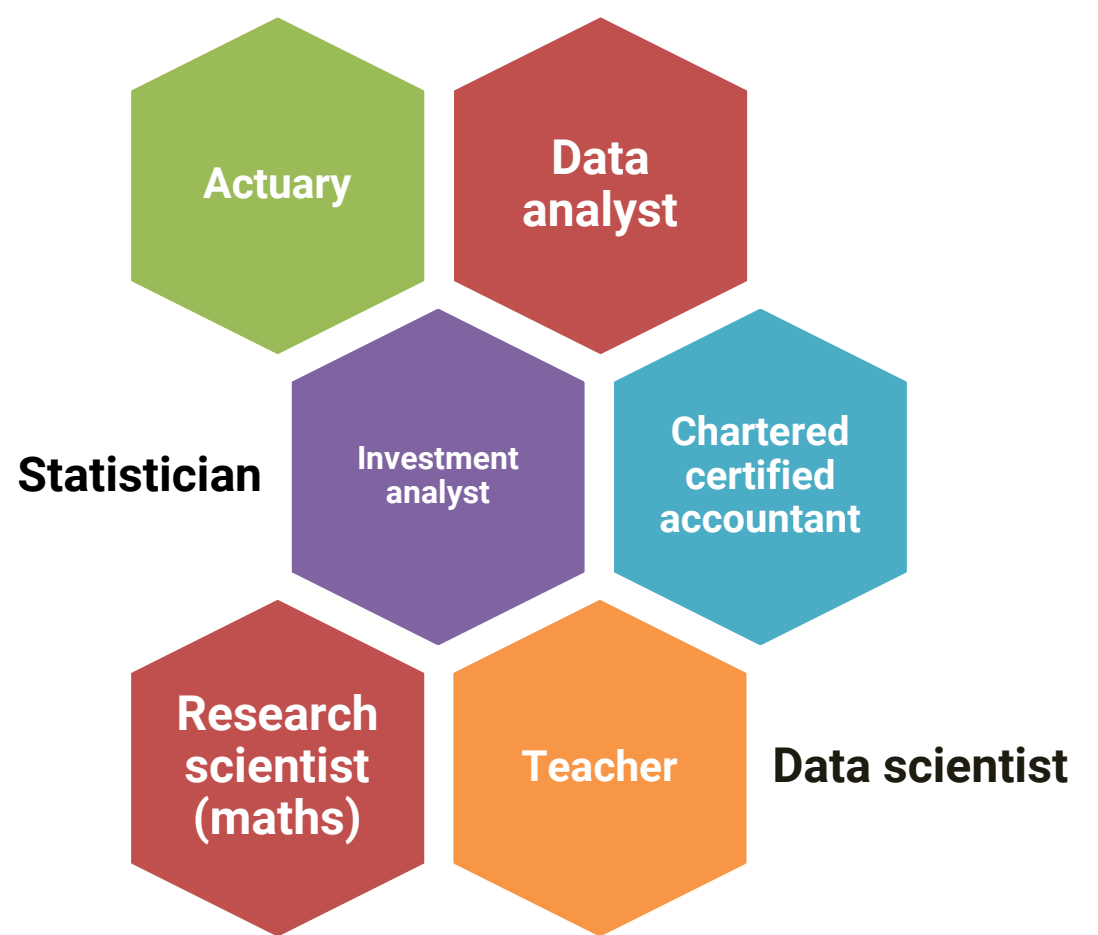

Maths is regularly in our top five subjects students go onto study at University.

Studying maths helps develop skills in logical thinking, problem-solving and decision-making, valued by employers across many job sectors

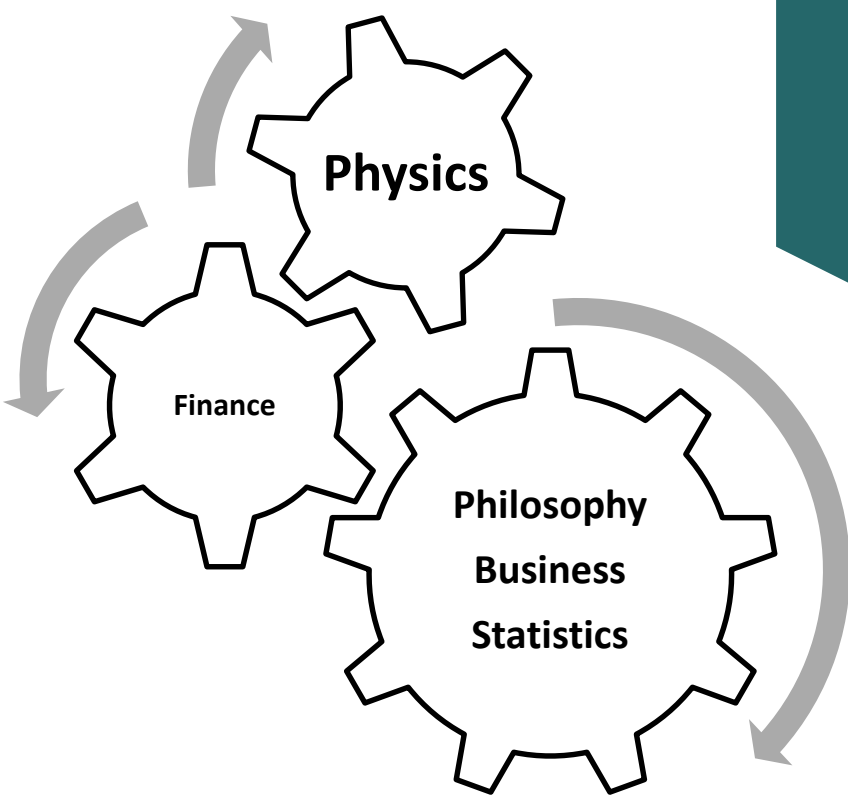

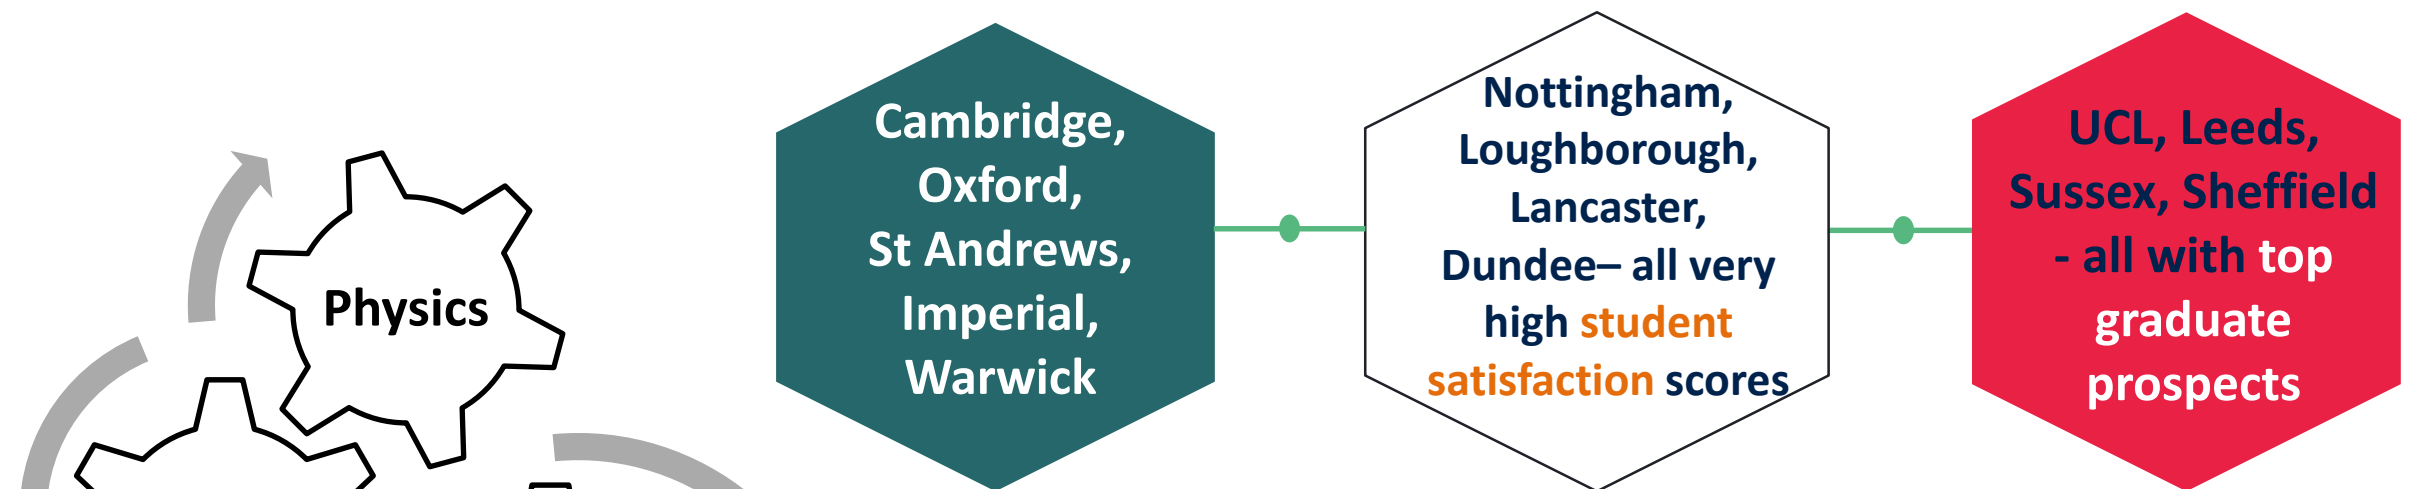

Jobs where a Maths degree would be useful include:

- Civil Service
- Financial manager
- Financial trader
- Game designer
- Insurance underwriter
- Machine learning engineer
- Meteorologist
- Operational researcher
- Quantity surveyor
- Software tester

Top 10 Universities for Maths

Complete University Guide 2019

Many of our students choose

A combined degree

applications last year included:
