Bring with you either typed notes or written answers of definitions of these legal phrases:

- Judge and their role
- Magistrate and their role

Try to bring with you a case from civil law and criminal law – perhaps you could use a newspaper to find some write up of cases. The Guardian is usually really good for those.

Your summer homework is to make sure you have pens, lined paper and either an A4 folder or a ring binder folder. This is to keep all of the learning materials that you will be given. You will be given resources in lessons and you will make notes in lessons about the work we study and you need to create a safe secure place to keep these things. These notes will be used to complete assignments and it makes it so much easier if you can bring them all to lesson!
