3.2 Accessing the Subject Review Documents

This should then list all the available documents for the student, or students, you are responsible for. For each academic year, there are three "Rounds" of Subject Review documents, which include the student's reflection on each of their courses, their Teachers' assessments and attendance summaries.

Depending on the facilities provided by your browser, these documents should be displayed in a new window or you may be given an option to download or open them. If you have problems opening the document, please ensure that "Pop-up Blocking" is not activated.

3.3 Attendance Reports

Before academic year 2016/17, we also published Attendance Reports. These have now been replaced by "live" reports which show the latest information at any time of the year. To view these reports, click the "Home" menu option, then select the student.

Select Menu options "Timetable and Attendance", then "Course Attendance". This screen then includes an "Attendance Reports" link to produce reports that can be viewed, exported or printed.

Please note that Calculated Attendance figures quoted in Subject Reviews generally cover attendance up to the end of the week before publication. There may, therefore, be some slight difference with the figures presented in the live reports.
