BHASVIC July 2027 Trip

Tanzania Human Rights & Community – 10 Days

Immerse yourself in the landscapes of Tanzania while gaining critical insights into the country’s legal systems, human rights challenges, and traditional Maasai lifestyle. Step beyond the classroom, work alongside local partners, and develop the real-world skills, independence, and global perspective that set you apart.

Human Rights, Crime & Justice

Spend time in Arusha, where the UN tribunal prosecuted those responsible for the Rwanda genocide. Dive into the Tanzanian legal system by observing active cases in local courts, visiting a juvenile detention centre, and interviewing local families to understand the real-world human rights challenges facing the community.

Maasai Education & Lifestyle

Empower the next generation by running engaging classroom activities at a local school, then step inside a traditional Maasai Boma to learn about ancient customs and discuss how climate change impacts their nomadic way of life.

Cultural & Wild Exploration

Experience the best of East Africa as you pick up Swahili language skills, learn the art of coffee cultivation at a mountain plantation, hike to the majestic Materuni Waterfalls, and embark on a full-day safari in Tarangire National Park.

Programme information

When?
